St Patrick's Day Maze

Can you find the way from the rainbow to the pot of gold?

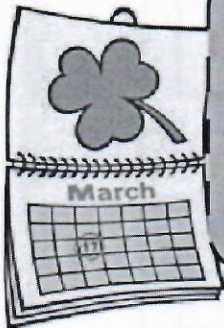

St. Patrick's Day

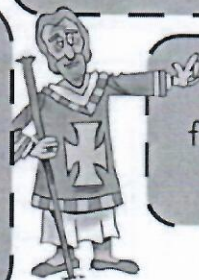

St. Patrick's day is the national holiday of Ireland.

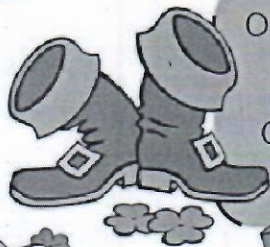

It's also a popular celebration in the United States, because there are lots of Irish immigrants.

It's celebrated on the 17th of March, the date when the saint died.

St. Patrick was born in the fourth century, and he brought Christianity to the Irish.

On St. Patrick's day, people usually wear green clothes. Children usually pinch those who don't wear green.

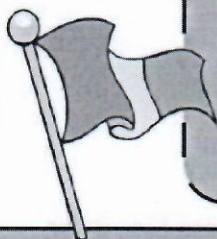

The traditional foods are corned beef and cabbage.

The traditional symbols are the shamrock, the harp and the leprechaun.

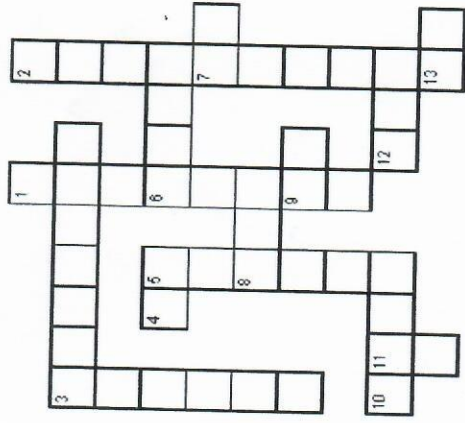

Leprechauns are small Irish fairies who live in the forests. They make shoes and they have lots of gold, but they are unfriendly.

This is the Irish flag. The green color represents the South of Ireland, and orange represents the North. The white color represents peace between them.

Origin of Valentine's Day

Although no one knows the exact origin of Valentine's Day, it is believed that it started in the Roman Empire around 270AD under the rule of Claudius II. During wartime, Claudius did not want men to get married because he believed it made them weak.

It is said that Bishop Valentine would perform secret wedding ceremonies so men could marry their sweethearts. Bishop Valentine got in big trouble for performing marriage ceremonies and was sent to jail. While in jail Bishop Valentine wrote a love letter to the jailer's daughter and signed it from your Valentine. Bishop Valentine was put to death for his crime on February 14th.

NEWS REPORTS

ESCAPED ZOO ANIMALS

= reporter, L = Lea

What was happening before the event?

I was on a school trip with my friends and teachers. We were at a zoo.

What were people doing?

People were looking at the monkeys and other animals. How did it begin?

One of the monkeys got angry because the people were staring at it.

What happened then?

That monkey opened its cage and then it opened the cages of other animals.

What were people's reactions?

People started to run. Our teacher told us to run, too, but I didn't. I tried to stop the animals from escaping. Then the zookeepers came and tried to put the animals to sleep, but the animals went wild. It was horrible! Then I remembered - animals need food. I told the keepers to give the animals some food, but they didn't listen. So, I stole some food and put it into the cages. And do you know what happened next? The animals returned to their cages.

How did it end?

The zookeepers told me it wasn't nice to steal things. "I know", I said, "but now you have the animals back". Still, I apologized and in the end I got a free entry to the zoo. I was really happy.

What happened after?

I came back to the zoo with my Mum and the zookeepers recognized me and greeted me.

ALIEN INVASION

During February 2023, several unidentified objects have been seen in several countries. The biggest ones were seen in the USA, specifically Idaho and Montana. We don't know what it is; it might be another Chinese spy balloon. We'll keep you updated.

- An unidentified object looks similar to a UFO. Please, don't panic, the situation will not escalate for now.

- The UFO has been shot down over a lake in Colorado. The government has found several documents with pictures. The UFO has also released an unnatural liquid and smell into the lake. Professionals suspect it's a spaceship from another planet or from an unknown country. Locals are worried about the situation. Please, stay calm and don't panic.

- The liquid has spread onto the land and fungus has started to grow everywhere. It is not a virus or anything we've seen before. It's most likely a living creature, like an alien.

- The creature has infected thousands of wildlife animals. The government is trying to find a way to stop it from infecting humans. Please, stay indoors and do not interact with any animals.

- The government has cleared the lake from the liquid and is currently trying to clear the land.

- The creature has been removed from land and wildlife. Most of the area has been damaged due to this and the government apologizes for ruining it. The creature will be kept under observation.

A PANTHER ON THE LOOSE!

It was a normal Sunday in Belgrade. People were enjoying their day at the zoo. They were taking photos of the animals and even feeding some of them. But the children weren't very calm. There was a child who was disturbing a black panther while it was sleeping. He was poking the panther through the cage with a stick. Suddenly, the black panther got angry and jumped out of the cage. People started to scream. They grabbed their children and ran to hide. The guards quickly ran to take a stun gun. Luckily, the panther was shot in time and fell asleep. The important part is that no one was hurt. After the incident the guards didn't let children near the cages again.
